

Early Notes

By: Elijah Sian Hernandez, Advisor: Dr. Madelene Spezialetti
Trinity College Computer Science Department

Motivation

- Engage students in learning from a young age
- Provide a free application to teach music
- Help children prepare for school
- Combine personal passion of music and teaching

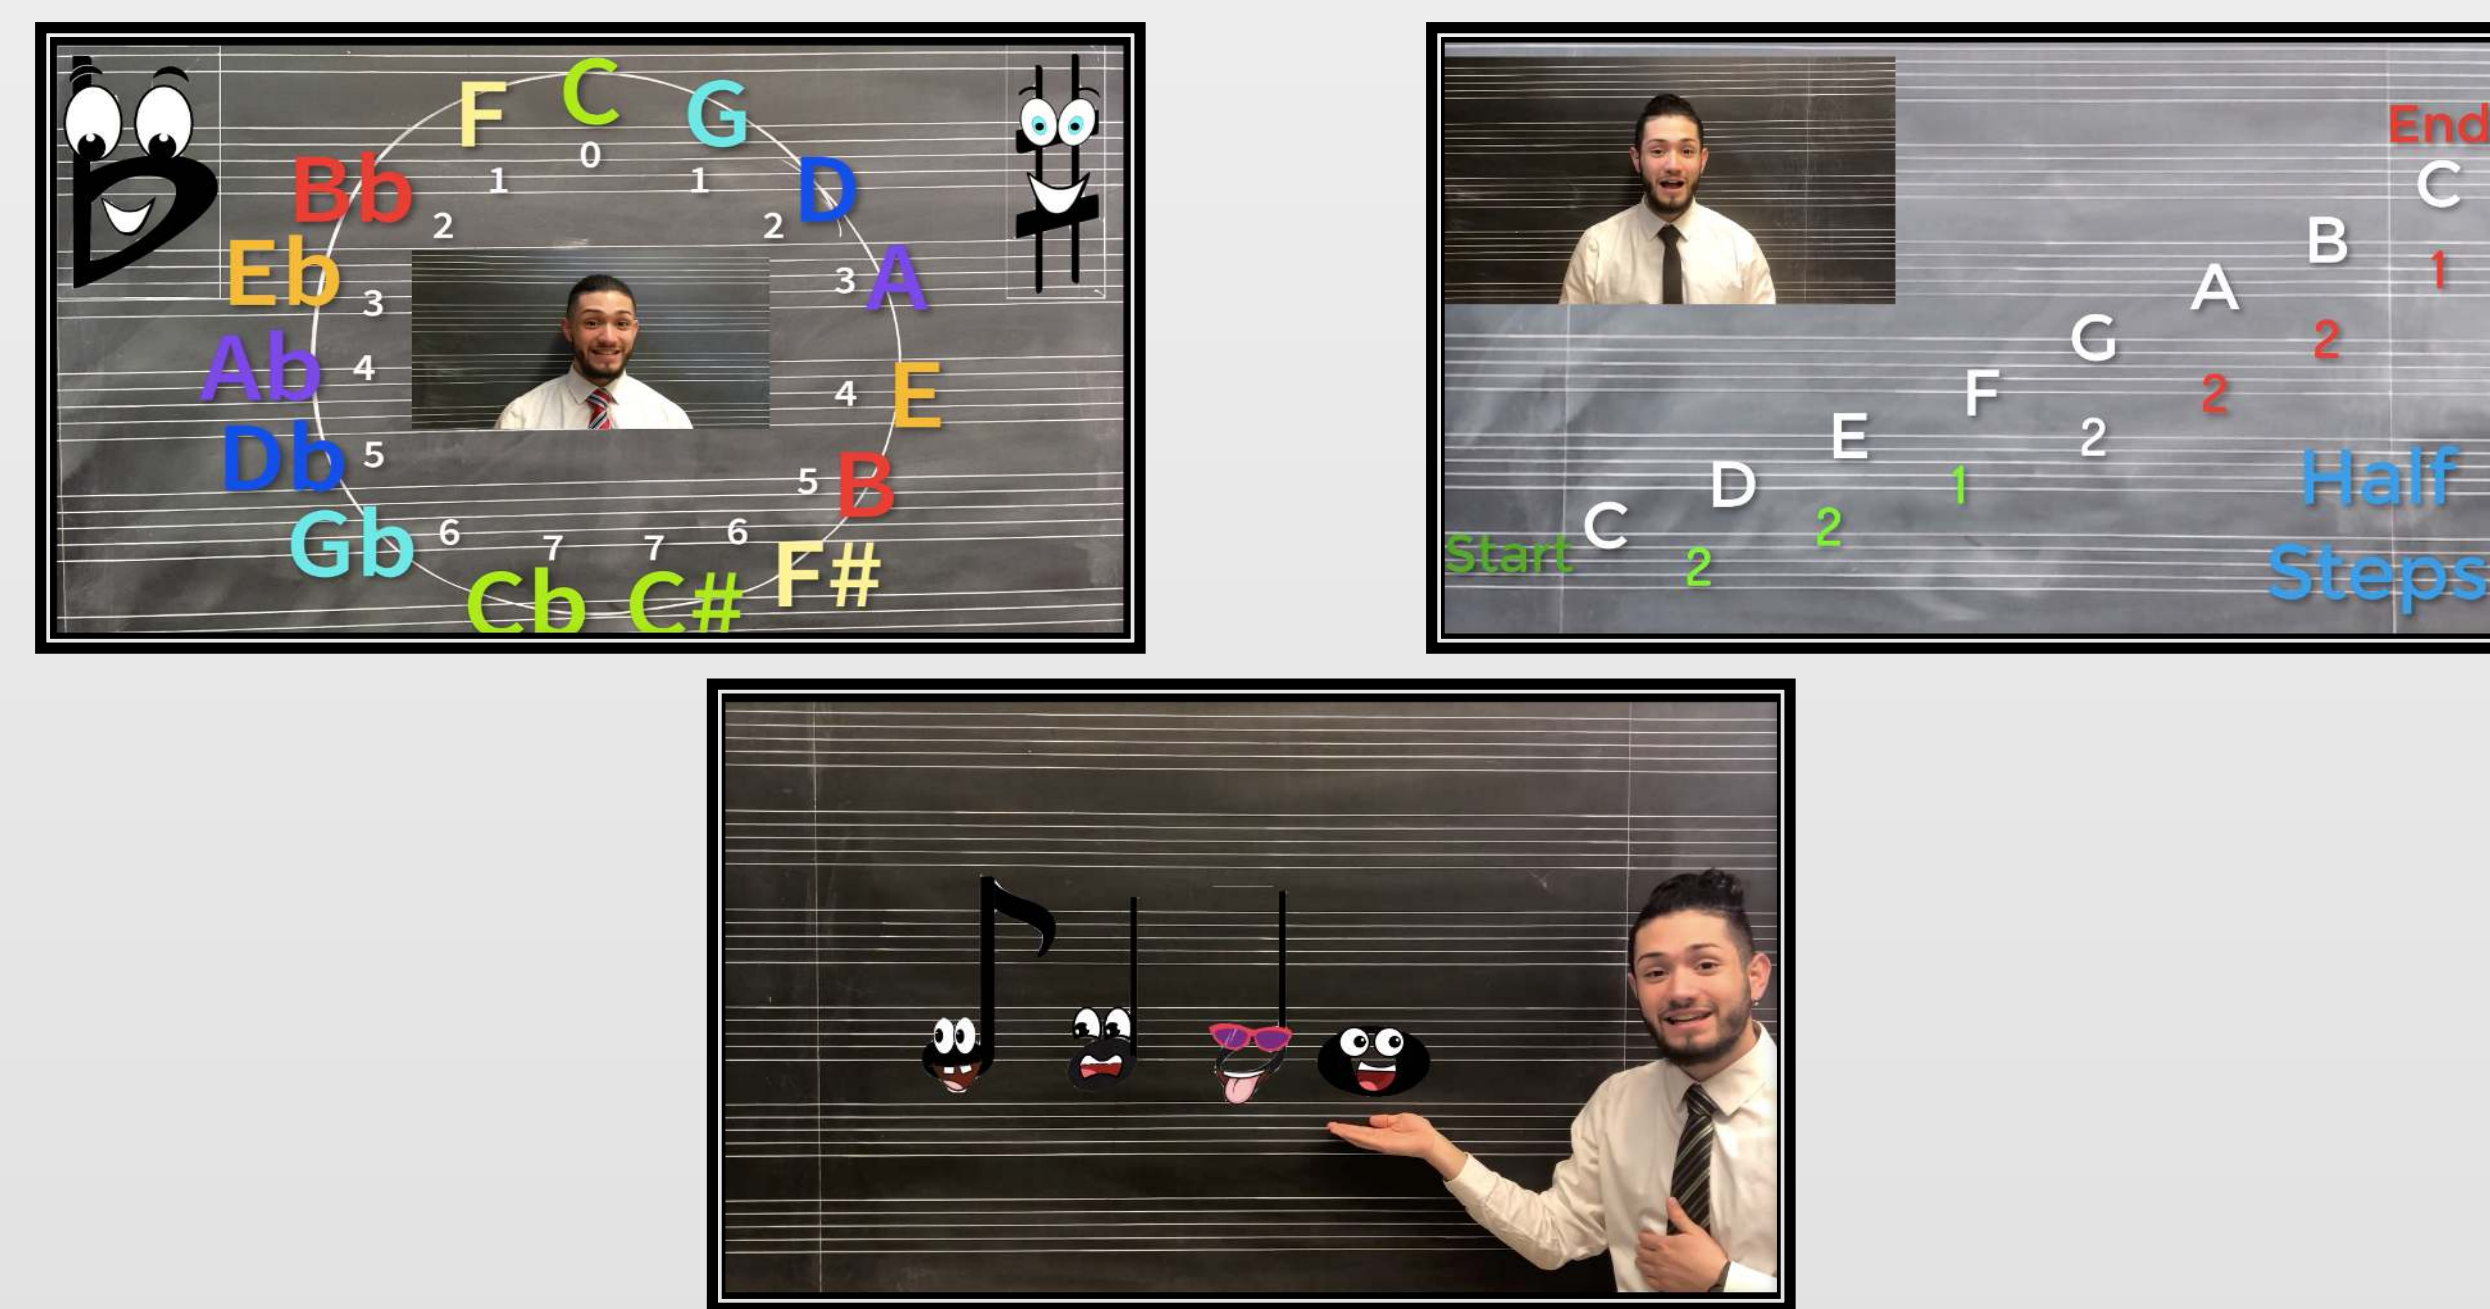

Abstract

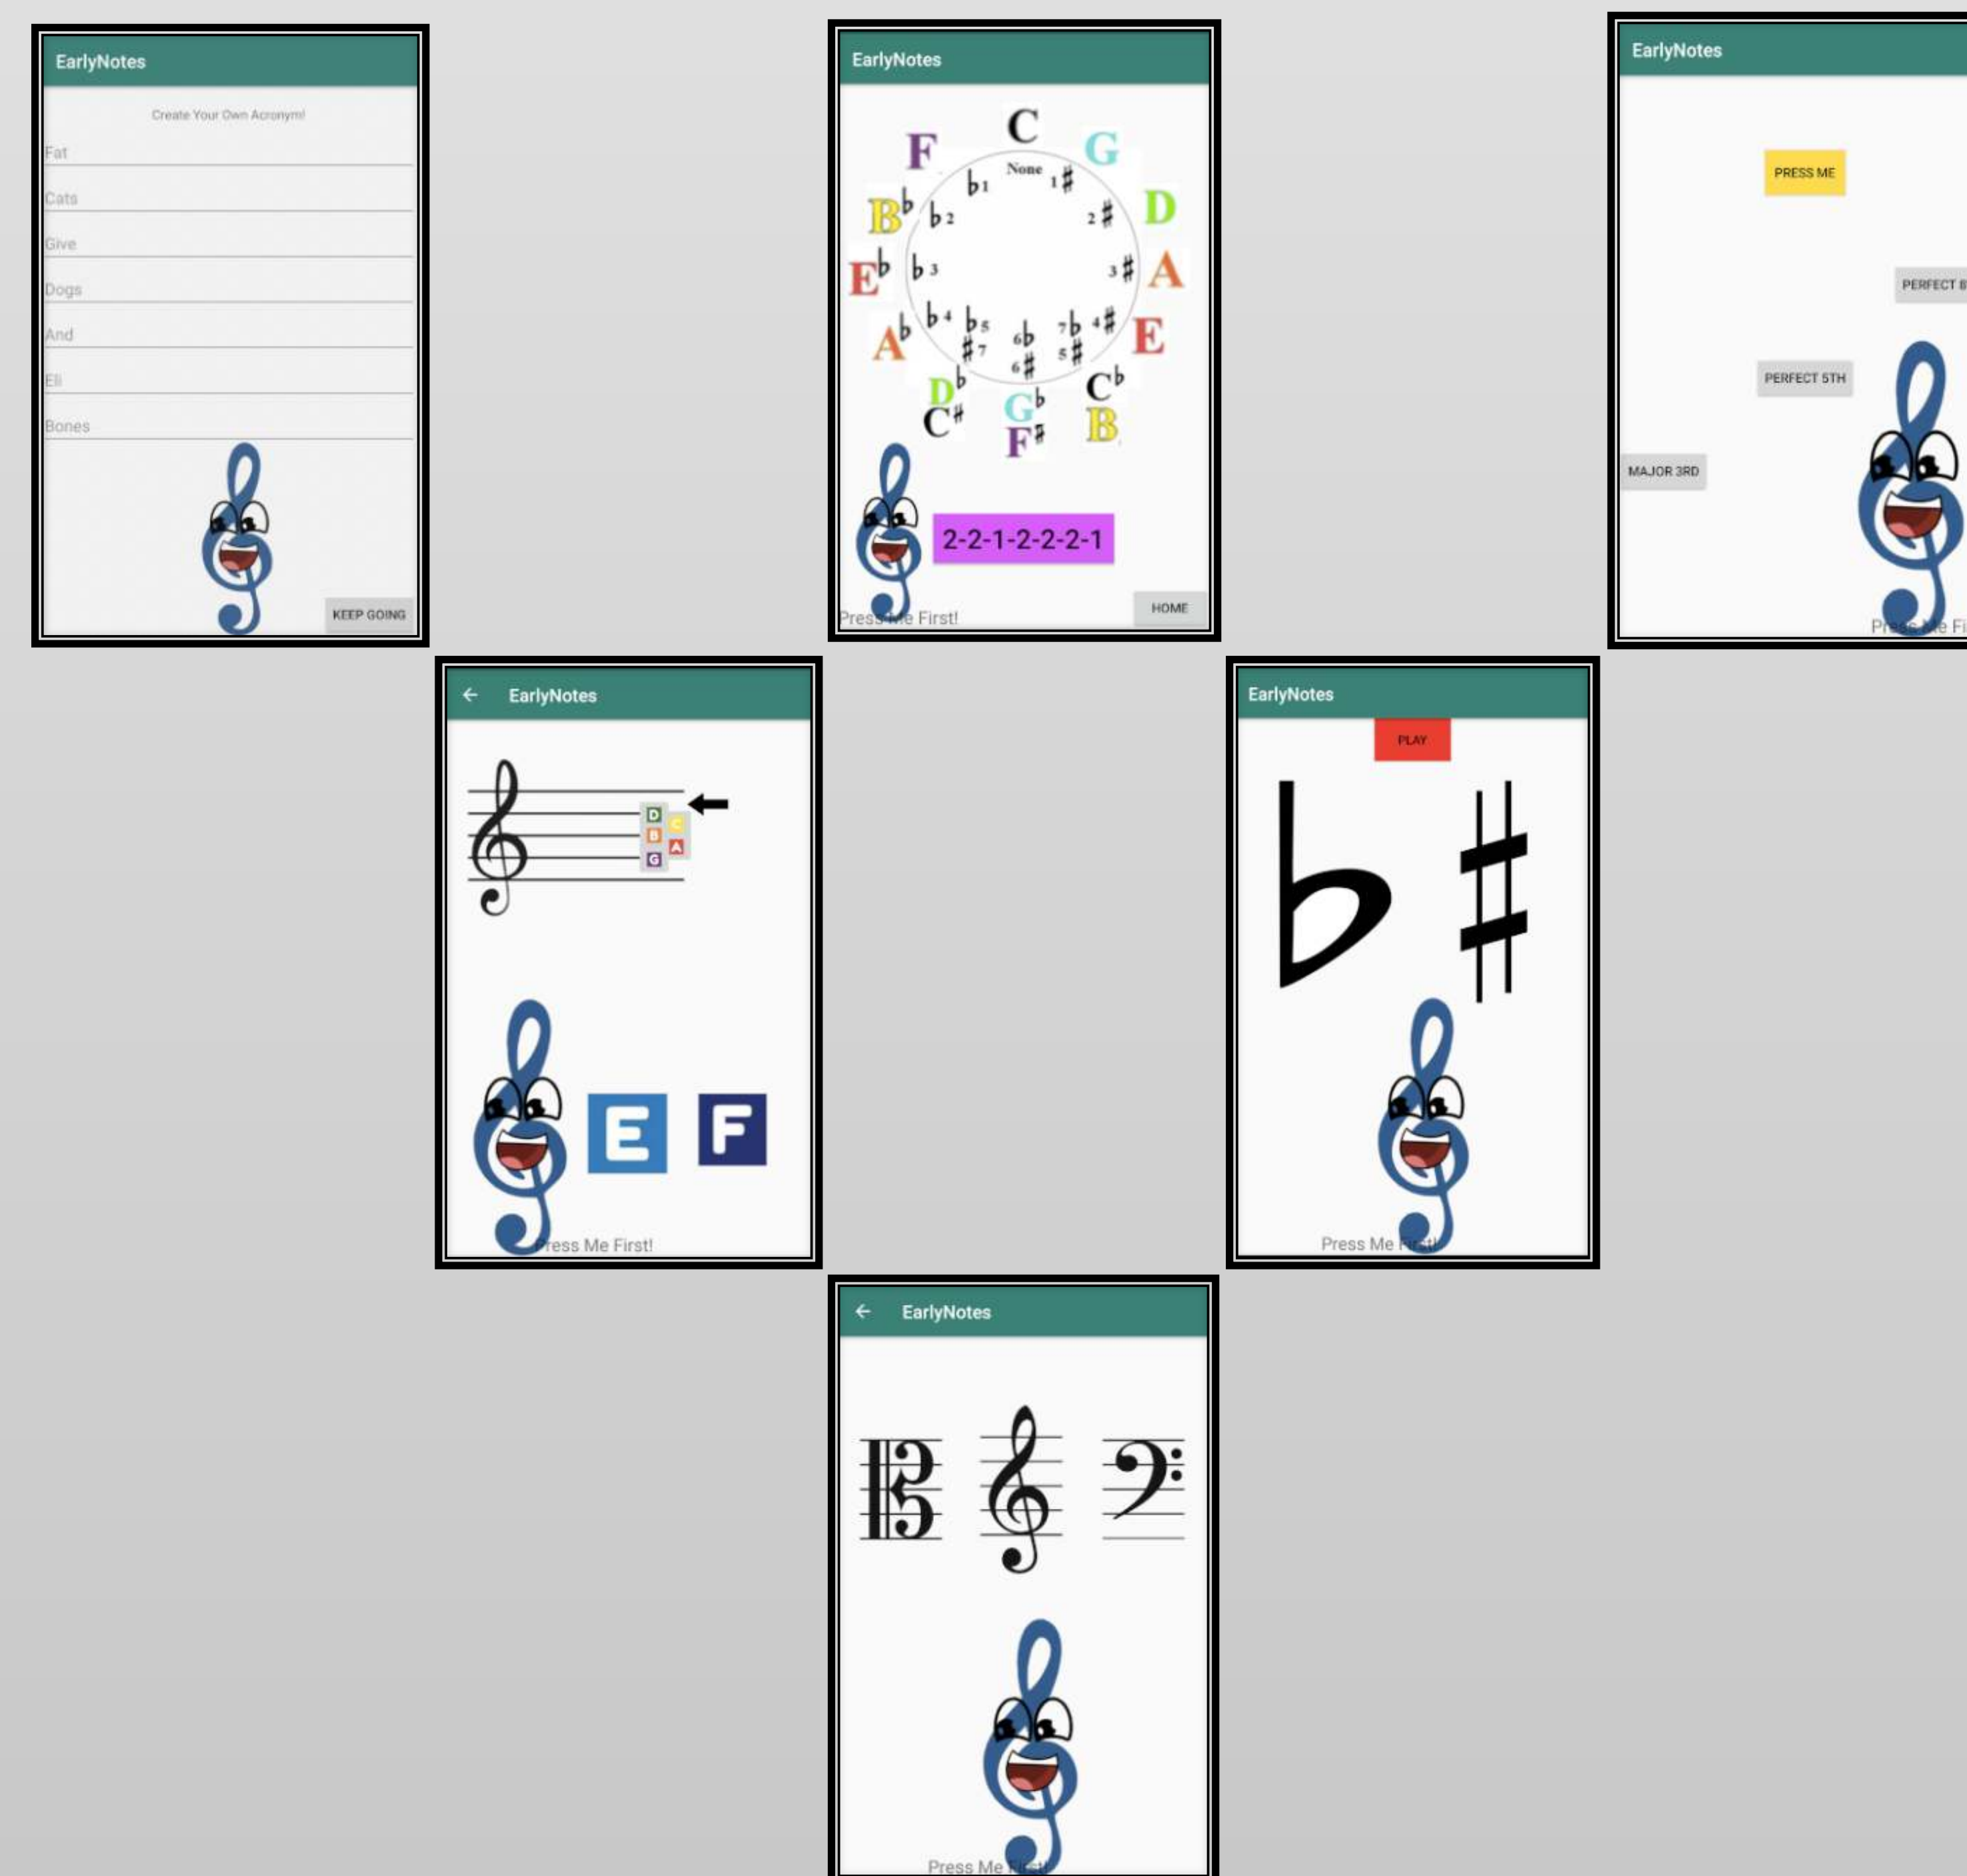

- A free early childhood development application that will foster essential life skills through the wonders of music.
- Children complete a sequence of lessons that demonstrate the basic foundations of music theory.
